Action Items

Supervisory Investigative Panel Expense Report

President Kyger asked if, Dr. Brisley-Sedon as Secretary and Dr. Bean as Vice Secretary attested to having spent at least twenty (20) hours per week attending to Board business. Dr. Brisley-Sedon and Dr. Bean affirmed that they had spent twenty (20) hours per week attending to Board business.

23-05-03 Motion by Dr. Krob, second by Dr. Kelley, to approve the Supervisory Investigative Panel expense report.

Roll call vote.

Motion carried with Dr. Bean and Dr. Brisley-Sedon abstaining.

Presentation by Mark Armstrong, D.D.S., Chairman of CDCA-WREB-CITA

President Kyger introduced Mark Armstrong, D.D.S., Chairman of the CDCA-WREB-CITA and former Board member who was there to speak with the Board to provide an update on dental and dental hygiene licensure examinations.

Dr. Armstrong thanked the Board members for the opportunity to update them on the CDCA-WREB-CITA examinations and provided a detailed PowerPoint presentation (Appendix A). He informed the members that beginning with the 2023 exam season all dental and dental hygiene examinations will be in the ADEX format which achieves the goal of a single national uniform initial licensure examination with universal portability. They will be the one testing agency that delivers the identical licensure exam in every dental school in the United States, Jamaica and Mexico and will test over 80% of the dental hygiene candidates. All states accept the ADEX Patient and Simulated Patient (CompeDont™) examination for initial dental licensure except Delaware and New York which requires an extra year of dental school to obtain licensure. All states except Nebraska and Delaware accept the ADEX examinations for dental hygiene licensure.

Dr. Armstrong stated that they have the longest running continuously maintained independent third party OSCE multi-station examination for clinical subjects in dentistry. The OSCEs provide a series of standardized problems/clinical dilemmas to each examinee which require the application of knowledge, skills, and judgments to render a treatment decision. Dr. Armstrong provided information on the criteria, content and scoring of both the dental and dental hygiene patient and patient simulated examinations along with the passing rates and

performance data for the 2022 examinations. He also explained the design principles of the CompeDont™ tooth which is utilized in all of the simulated examinations.

Upon questioning by the Board, Dr. Armstrong explained that if any of the members wished to become examiners for the CDCA-WREB-CITA they just needed to contact them at their offices. He encouraged the members to become examiners as it helps fulfill their mission of patient protection. When asked about examining in the State of Ohio, Dr. Armstrong explained that, as with many other states, they have law or rules in place to preclude Ohio Board members from examining in their home state.

President Kyger asked if there were any additional questions from the Board members at this time. Hearing none, he thanked Dr. Armstrong for providing the information on the exams.

Enforcement

Personal Appearances

Rahul Gupta, D.D.S.

Dental Board Enforcement Officer Barb Yehnert provided a summary of the matter of Rahul Gupta, D.D.S. for the Board stating that this was Dr. Gupta's second appearance before them. She stated that Dr. Gupta's dental license was issued on March 8, 2023, with the restriction of no more than 16 hours per week and 8 hours per day but his prospective employer requires associate dentists to work at least 30 hours weekly. Therefore, she stated that Dr. Gupta is asking the Board to consider an increase to 32 hours of work per week. She explained that he would like the Board to know he has been working 40 hours per week at the Department of Health, not in a dental capacity, and that the 40-hour workweek has not impacted his recovery and he feels working 32 hours per week will be manageable. Ms. Yehnert informed the Board members that Dr. Gupta is in full compliance with all requirements of his consent agreement.

Dr. Gupta began by updating the members on his recovery and how things have been improving in his life by making amends with those he felt he had harmed which has allowed him to regain many of his friendships and connections he felt he had lost. He has become involved with the meetings in his treatment center and feels that this allows him to give back by showing others that the treatment program works and that if you maintain your spirituality and continue to work on yourself you can live a long life away from drugs and alcohol.

Dr. Gupta explained that he has been working 40 hours per week for the Ohio Department of Health, Bureau of Child and Family Health but not in a clinical dental capacity. He explained that he was working as a public health consultant service survey coordinator by reaching out to school superintendents in the district to persuade them to become involved and participate in the dental check initiative. He stated that he has always had a passion for public health and pediatric dentistry and this project helps to fulfill that by showcasing the importance of oral health in school-aged children.

Dr. Gupta stated that he was before them to request an increase in his practice hours. He explained that he has an opportunity to work in a corporate dental office and his employer requires that he commit to working 30 hours per week and obtain his DEA license. He stated that he had applied for the license but was informed that they would accept his application under a memorandum agreement. He stated that he would like his practice hours to increase to 32 hours as this would allow him to qualify for medical benefits. The additional hours will also allow him to become more financially independent from his parents, whom he has relied upon throughout dental school and while he has been unemployed and in treatment.

Upon questioning by the Board, Dr. Gupta reiterated that his work with the Ohio Department of Health was as a special project worker and not considered as a full-time employee, so he has limited healthcare benefits. He confirmed that his current job functions do not require contact with patients or providing diagnosis or treatment. His position is as a public health consultant reaching out to the elementary schools to establish correspondence with principals and school nurses. Dr. Gupta further explained that if granted the additional practice hours he would not be able to continue working for the Ohio Department of Health but rather take a new position in a corporate dental office.

President Kyger thanked Dr. Gupta and indicated they would be discussing his request during Quasi-judicial deliberations.

Quasi-judicial Deliberations

23-05-04 Motion by Dr. Quereshy, second by Dr. Kelley, that the Board recess in order to deliberate the quasi-judicial matters related to Dr. Rahul Gupta.

Committee Reports

Law and Rules Review

President Kyger, as Chair of the Law and Rules Review Committee (Committee), stated the Committee had met at approximately 10:30 a.m. that day with Dr. Krob and Dr. Queresby in attendance, as well as many guests. He stated that the Committee had the opportunity to review the revised anesthesia and sedation rules which included revisions made subsequent to the Board's March 2023 public rules hearing based on testimony provided during the hearing and written comments that had been submitted. President Kyger stated that Committee members and guests provided additional comments regarding the rules and revisions. The consensus of the Committee was to table the rules for further consideration and once reviewed the revised rules to the full Board based on any further revisions made during Committee discussions.

Executive Updates

President's Update

President Kyger stated that they had intended on presenting a plaque to Dr. Subramanian for all his work and contributions to the Board, but unfortunately, he had been unable to attend the meeting. He stated that they would be inviting him back to a future meeting in recognition of his service to the Board.

President Kyger stated that he did not have anything else to report at this time but informed the members that the next meeting would be held on June 7, 2023 and he would have several documents for their review prior to that meeting.

President Kyger then turned the meeting over to Director Kamdar for his Executive Director Update.

Executive Director's Update

Board Member Appointments

Director Kamdar commented that after today there would be two (2) vacancies on the Board for dental members so they may be hearing about new appointments in the coming weeks and possibly have one (1) or two (2) new members by the next meeting in June.

HB 33, HB 509, SB 131 and SB 40

Director Kamdar stated that he testified before the Senate Health Committee regarding HB 33 which is the Operating Budget Bill. Some of the questions he received were regarding access to care, potentially expanding the Dental Loan Repayment Program which is in charge of administering the program and explaining that the Board's part is just in collecting the licensure fees and passing on a small portion to the Ohio Department of Health for administration of the program. He stated that he was asked about HB 509 and what kind of impact that will have on the Board. He stated that he had explained that they would be moving into a rolling methodology for renewals as opposed to renewals on December 31st every two (2) years. Additionally, the continuing education requirements for both dentists and dental hygienists have been reduced.

Director Kamdar stated that there were a few more bills that they are keeping an eye on, SB 131 regarding reciprocity which allows portability of licensure between states and SB 40 which is the interstate compact bill for dental and dental hygiene licensure. The sponsor is the same for both bills, Senator Kristina Roegner who has successfully been championing interstate compact bills for different professions. He stated that the key difference between the bills is that in SB 131 the reciprocity impacts all license types our Board regulates, whereas SB 40 only impacts dental and dental hygiene licenses. He stated that there are some concerns regarding portability of licensure as some of the other jurisdictions have standards that are lower than those in Ohio. Director Kamdar stated that he would like to have conversations with Board stakeholders in the coming weeks to gain clarity and then informed the Board members that the Ohio Dental Association had already provided testimony supporting SB 40.

Anything for the Good of the Board

President Kyger stated that there were no agenda items for the meeting under Anything for the Good of the Board. He then asked if anyone had any items for discussion.

American Association of Dental Boards Accredited Continuing Education (AADB ACE)

Dr. Carr informed the members that Director Kamdar had been approached by the American Association of Dental Boards (AADB) regarding their new Accredited Continuing Education (ACE) program and seeking approval from the Board. She stated that she had met with their representatives virtually to discuss the new program and the accreditation process which approves courses individually rather than sponsors. She stated that she will be discussing the information with the rest of the Education Committee members at their next meeting before bringing any recommendation to the attention of the full Board.

Use of LASERs by Dental Hygienists

Dr. Krob stated that she had been approached about the use of Light Amplification by Stimulated emission of Radiation (LASERs) by dental hygienists. She stated that there had been some discussion about dentists using LASERs within the dental practice and she was being asked if the use of LASERs by dental hygienists could be discussed as an additional duty to permissible practices. Dr. Krob said the discussion of LASERs was brought to her attention and she wanted to mention it to the Board in case they would like to discuss this further.

President Kyger asked if there were any other items that Board members wanted to discuss. He noted that there were none.

Adjourn

President Kyger thanked the members for their attendance to the meeting and then adjourned the meeting at 3:40 p.m.

The COMPE DONT™ Tooth

Design Principles

- ▲ Hard Tissues have the similar hardness as human tooth
- ▲ Designed specifically to simulate the natural caries disease process
- ▲ Stained and Unstained Caries
- ▲ Promulgation along the DEJ
- ▲ Stained affected or "sclerotic" dentin
- ▲ Lesions of Standardized Difficulty with Minor Variability to allow for evaluation of a candidate's clinical judgement, skills, and decision-making in the treatment of the caries disease process
